RE: OPRA #191024-374036

Dear Mr. Waters:

This letter is in response to your Open Public Records Act ("OPRA") request, to NJ TRANSIT seeking the following:

- 1) Any documents describing the scope, duration, or location of millimeter wave technology tests with the TSA.
 - 2) Copies of any reports or assessments written describing the results of the tests.
 - 3) Any policies describing how the technology is used, and any legal analyses or studies that may have been carried out which deal with the technology
 - 4) A copy of all technical documentation regarding the technology.
- Please search your records for user manuals, maintenance or service manuals, studies or reports, spec sheets or data sheets, or any other such documentation.

Please be advised that items 1, 2, 4 and portions of item 3 are being denied based on OPRA exceptions covering, "security measures and surveillance techniques which, if disclosed, would create a risk to the safety of persons [or] property" and "emergency or security information or procedures for buildings or facilities which, if disclosed, would jeopardize the security of the building or facility or persons therein." N.J.S.A. 47:1A-1.1.

With respect to the portion of item 3 seeking "any legal analyses," please be advised that NJ TRANSIT has no records responsive to your request.

At this time your request shall be deemed closed. If you have any questions, please contact me at (973) 491-8383.

Sincerely,

A handwritten signature in black ink, appearing to read "Rebeca Hernandez", is written over the typed name.

Rebeca Hernandez
